

UNIVERSITY LIBRARIES

With more than 1.6 million volumes and more than 4,000 periodical subscriptions, library collections support the subject areas in the curricula of the colleges and the research interests of more than 1,000 faculty members. The William S. Carlson Library is the main library for The University of Toledo. Other libraries are the Scott Park Library on the Scott Park campus and the Engineering Library at Palmer Hall. The Ward M. Canaday Center for Special Collections on the fifth floor of Carlson Library houses the library's rare books, manuscript collections and The University of Toledo's archives. The LaValley Law Library located within the College of Law shares resources and the library catalog with the University Libraries, but is separately operated.

UTMOST is the online catalog providing access to and locations of materials in all UT libraries. The University of Toledo is a charter member of OhioLINK, a statewide library and information network that links collections in 85 academic libraries in the state, two public library systems and the State Library of Ohio.

UTMOST provides seamless access to a variety of online databases, full-text journals and full-text books. Reference librarians are available to assist users in selecting appropriate databases for research.

Please see the libraries' Web page for operating hours and the latest information: <http://library.utoledo.edu>

Library Administration
